## Product Description

### Single leg or two legs Inflatable Air Dancer, mini inflatable air tube man for advertising

#### TYPES OF AIR DANCERS

**Air Tube-** Our budget Air Tube is simply an inflatable tube that sits over the axial fan which can be branded and comes in a variety of different colours. Suitable for customers who want to attract attention but have less money to spend on marketing or advertising their business.

**Single Leg Air Dancer-** Single Leg sky dancer, which is cheaper in price than the double leg version. Although smaller in overall design than the double leg, it can be made in a range of sizes from 3 meters upto 8 meters tall, so will still have a dramatic impact. It is also significantly cheaper as only one fan is required for inflataion.

**Double Leg Air Dancer-** This type of inflatable Sky dancer is mostly more than 5 meters dynamic moving characters, who dance and move in the air as the fans push air quickly from the base of the feet upto and out of the top of the head and arms causing the arms to rise and fall causing the inflatable to 'dance' around in the wind.
